

# Product Data Sheet

## Mobilarma MT Dewatering, Medium Term Corrosion Preventative

### Product Description

Mobilarma MT is a high flash point solvent deposited, medium term corrosion preventative for ferrous and alloy components during storage and transit. It exhibits excellent dewatering properties and is an efficient finger print corrosion suppressant.

### Benefits

Mobilarma MT is based on specially selected high flash point solvents and components offering the following benefits:

- Effective dewatering
- Finger print corrosion protection
- Improved drainage
- Reduced evaporation loss from treatment tanks
- Safer working environment
- Reduced health and safety demands
- Reduced storage requirements

### Application

Mobilarma MT is an excellent dewatering rust preventative which provides medium term protection of ferrous and alloy components during storage and transit. It is particularly suitable for the protection of highly machined precision parts where heavy films are not desirable.

Mobilarma MT is best applied by dipping but can be sprayed or brushed on. Where necessary it can be removed by hydrocarbon solvents or suitable alkaline cleaners.

## Health and Safety

Based on available toxicological information, it has been determined that this product poses no significant health risk when used and handled properly.

Details on handling, as well as health and safety information, can be found in the Material Safety Data Bulletin which can be obtained through Mobil Oil Company Ltd., by telephoning 01372 22 2000.

Typical physical characteristics are given in the table. These are intended as a guide to industry and are not necessarily manufacturing or marketing specifications.

## Typical Characteristics

---

	<b>Mobilarma MT</b>
Relative Density 15/4 °C	0.81
Film Type	Light grease film
Film Thickness, microns	1.5
Drying Time at 20°C	90 mins. (solvent free)
Coverage, m <sup>2</sup> / litre	120
Non-volatile content, % wt	17.5
Flash Point COC °C, min.	62
Corrosion protection:	
indoors	9 months
covered outdoors	3 months
outdoors	Not recommended
